July 1, 2022

To: Residents of Medfield
From: Department of Public Works

Dear Medfield Resident,

This letter is to inform you that we will be conducting grinding and pavement operations on **West Street (from North Meadows Road to the Millis Town Line)** beginning the week of July 11, 2022. The contractor for this activity will be Aggregate Industries, from Saugus, Massachusetts. There may be delays in the schedule if there are issues with weather or mechanical breakdowns.

The construction activity will be accomplished during the day. We apologize in advance for any inconveniences this may cause you.

The work will consist of milling (grinding) the existing asphalt top layer, adjust the manholes and catch basins to its finished grade level, install the top course pavement of asphalt, and linepaint all the pertinent areas for proper traffic movement. There will be police details on-site to assist you through the project. You may experience detours at times and we ask that you seek alternate routes if possible.

If you have any questions or concerns, please contact the Medfield Department of Public Works at (508) 906-3003. Thank you for your cooperation and understanding as we try to improve our roadway network in the Town of Medfield.
