## **Board of Health**

- **Free Covid Tests Available**

The Administration for Strategic Preparedness and Response (ASPR), an agency within the U.S. Department of Health and Human Services, in collaboration with the U.S. Postal Service has reopened [COVIDtests.gov](https://www.covidtests.gov) as of today, so that households across the country can order four additional over-the-counter COVID-19 tests for free. These tests are intended for use throughout the 2024 holiday season to detect currently circulating COVID-19 variants. Clear instructions are included on how to verify [extended expiration dates](#).

These efforts complement ASPR's ongoing distribution of free COVID-19 tests to long-term care facilities, low-income senior housing, uninsured individuals, and underserved communities. Through this community organization distribution program

and the home-ordering program, ASPR has provided a combined total of more than 1.9 billion COVID-19 over-the-counter tests.

As the fall and holiday seasons will create increased close proximity gatherings of people, the Administration remains committed to helping Americans access tests to help so that, if they develop a respiratory illness, they can learn whether it is due to COVID-19 and then make the best choices about seeking medical care and reducing risks to family, friends, and co-workers. To order four free, over-the-counter COVID-19 tests, visit [COVIDtests.gov](https://www.covidtests.gov).
